

## MASONS GIVEN FEWER HONORS THAN EXPECTED

Scottish Rite Council  
Only Elected One Man  
to Thirty-third  
Degree.

The failure of the Supreme Council of Scottish Rite Masons to elect more than one man from the District of Columbia to receive the thirty-third degree, honorary, was the subject of considerable comment to-day in Scottish Rite circles. It is known that four names were submitted to the committee on nominations to receive the thirty-third degree, and it was generally supposed that there would be at least two thirty-thirds elected from Washington.

It is understood, however, that in proportion to the number of members elected to the Scottish Rite degree the last two years Washington is entitled to one and one-half thirty-thirds. It was hoped by the fraternity in this city that two would be elected, and there were those who believed that the District of Columbia deserved to have three persons elected because of their zeal and enthusiasm in the work of the rite.

### Schley's Election Expected.

The election of Admiral Winfield Scott Schley to the thirty-third degree, which will be given to him and to a class of members, elected yesterday, at the House of the Temple to-night, was a foregone conclusion. Since his election into the Scottish Rite bodies, Admiral Schley has been most zealous. He was signally honored by the then grand master Mason of the District, who granted B. B. French Lodge a special dispensation to give Admiral Schley the three Blue Lodge degrees in one evening, an honor conferred upon but few men in the whole history of the Masonic fraternity. President Roosevelt was not thus honored when he was initiated. He took his degrees in order, and passed his examination most acceptably.

Two other men of national reputation were also elected to receive the thirty-third degree, United States Senators Nathan B. Scott, of West Virginia, and Francis E. Warren, of Wyoming. Both of these men have been Masons for a long time, but their Scottish Rite associations are comparatively recent. In one evening, an honor conferred upon but few men in the whole history of the Masonic fraternity. President Roosevelt was not thus honored when he was initiated. He took his degrees in order, and passed his examination most acceptably.

### Five Knights Commander Chosen.

Seven names were submitted to the committee on nominations to receive the Knight Commander's degree from the District of Columbia. The Supreme Council, however, in pursuing its policy not to make more Knights Commander than the District was entitled to under the statutes of the Supreme Council, elected five, as follows:

William E. Andrews, Fred M. Beck, Sterling A. Kerr, Jr., Ellwood P. Morey, and the president, representative of Almas Temple, Francis A. Sebring.

Upon the adjournment of the council at noon today the bliazt of the governing body of the Scottish Rite will proceed to the grave of Albert Pike, in Oak Hill Cemetery, where appropriate services in commemoration of the illustrious worth of the late commander as a Mason and a man will be held.

The Supreme Council were the guests last night of Evangelist Chapter, No. 1, Knights of Rose Croix, when the fifteenth degree, "Knight of the East," was exemplified. The lessons of the degree were dramatically presented, the music, under the direction of J. Walter Humphrey, being a feature of the ceremony.

## PROPERTY REVENUES HIGHER IN THE WEST

SEATTLE, Oct. 25.—R. S. Hawley, statistician for the Trustees' Security Company of New York, is in Seattle gathering statistics regarding the square foot and front foot values of the property, the cost of buildings, the revenue derived, and all other matters of this kind.

Mr. Hawley has completed part of his work, which is national in scope, and has compiled values in St. Louis, Pittsburgh, Washington, Kansas City, St. Paul, Indianapolis, Chicago, and a number of Eastern cities.

He says that the revenues derived from properties is greater in the West than in the East and that the rate of increase between round values and rentals are higher.

The statistics are for the guidance of trust companies and will extend into Canada as soon as this country has been covered.

## Louis C. Wilson Named On Tax Assessing Board To Succeed A. A. Wilson

Promotion Carries Advance of \$1,000 a Year Salary—Entered Service Ten Years Ago.

Benjamin F. Adams Made Assistant Assessor. Graduate of Columbian University.

The Commissioners today announced the appointment of Louis C. Wilson, assistant assessor, to fill the vacancy on the board of assistant assessors, caused by the death of A. A. Wilson. The appointment carries with it an increase of from \$2,900 to \$3,000. Benjamin F. Adams, a clerk in the office of the assessor at \$1,200, is appointed to succeed Mr. Wilson.

The appointment of Mr. Wilson did not come as a surprise to the officials of the District building. His long association with District affairs and his close attention to the duties of the various offices he has occupied have caused him to be regarded as an authority, especially on matters relating to real estate. As announced by Commissioner West, his election is in line with the efforts of the Commissioners to secure a more satisfactory administration of the personal tax law and is regarded as a fittingly fitting.

### His Rapid Advance.

Mr. Wilson is twenty-nine years old and was born in the District of Columbia. His early education was received in the local public schools and the Business High School. Later he attended the law school of Columbian University, and was graduated from that institution in 1903. For several years he was employed with a local real estate firm.

Mr. Wilson was appointed as a messenger in the District service September 27, 1897, and his rise thereafter was rapid. In 1898 he was promoted to messenger at \$600, and in 1899 to clerk in the executive office at \$720, and the same year was promoted to clerk at \$800. He was appointed as secretary to Commissioner Ross in 1900, and the same year his salary was increased to \$1,200. In this position he was retained by Commissioner West. Upon the death of Mr. Fred Avey in December last, Mr. Wilson was appointed as his successor at \$2,000.

## ELEVATOR DROPS; WAS OVERLOADED

An overloaded elevator in the annex to the old building of the Government Printing Office yesterday gave way under the heavy load and precipitated two men and a large stamping machine, weighing about 6,000 pounds, to the pit of the elevator shaft, with a crash.

Workers were engaged in moving the stamping machines from the second floor of the old building to the new building when the accident occurred. It was by chance that the machinist, John J. Dohoney, and the elevator conductor, who fell with the load, escaped death.

One of the elevator cables broke and fell on the imprisoned men, and the machine crashed through the bottom of the elevator.

The accident caused great excitement throughout the old building. The elevator was carrying 1,000 pounds more than what it had been tested for.

LOUIS C. WILSON,  
Who Has Been Appointed to the Board  
of Assistant Assessors.

Benjamin F. Adams, who was promoted to assistant assessor, is thirty-two years old and a native of New Hampshire. He was graduated from Dartmouth in 1897, and later taught school in his home town, Hinsdale. Desiring to study law, he came to Washington in 1900 and obtained an appointment as clerk in the Assessor's office. While thus employed he studied law at the Columbian University, and was graduated in 1904. Mr. Adams' appointment is in line with the desire of the Commissioners to appoint men in the Assessor's office who are thoroughly familiar with the intricacies of questions relating to real estate law and its administration, and is regarded by the officials of the District as an excellent selection.

As the result of the appointment of Mr. Wilson and Mr. Adams, the following promotions are made in the Assessor's office: Wade H. Coombs, assistant inspector of licenses at \$1,000 per annum, promoted to clerk at \$1,200, vice B. F. Adams; J. E. Boteler, clerk, at \$1,000 per annum, appointed assistant inspector of licenses at \$1,200; N. H. Stellweg, clerk special assessment division, at \$900, promoted to clerk, at \$1,000.

## C. J. WOODWARD BURIED BY KNIGHTS TEMPLAR

Funeral services for Charles J. Woodward, who died Tuesday, were held in the home of his daughter, Mrs. Amelia Ballard, 25 G street southwest, at 2 o'clock this afternoon. The Rev. Thomas Crouse and J. D. Kizer, of the Methodist Episcopal Church, officiated. Interment was made in Oak Hill Cemetery, the services at the grave being conducted by the members of Potomac Commandery, No. 3, Knights Templar, of which Mr. Woodward was a prominent member.

Mr. Woodward was seventy-six years old, and a lifelong resident of Washington. For a number of years he was employed in the Treasury Department, and later in the Postoffice Department. Owing to a stroke of paralysis nineteen years ago he was forced to retire from active life, and in later years has been an invalid.

Mr. Woodward leaves three daughters, Mrs. Amelia Ballard, Mrs. Alice Lyman, and Mrs. Sabra Harry.

## UNION STATION WON'T BE FINISHED FOR EIGHT MONTHS

B. & O. Is Compelled  
to Use Structure To  
Change Trackage

That the new Union Station, which will be opened to the public next Sunday, will not be entirely completed in less than eight months from now was the prediction made at the offices of the terminal company this morning.

Next Sunday all trains on the Baltimore and Ohio railway will take and leave passengers at the new station. But not until November 17 will the other railroads coming into Washington use the terminal. On that date the trains of the Pennsylvania, the Southern, the Chesapeake and Ohio, the Atlantic Coast Line, and the Seaboard Air Line will use the station.

The interior of the edifice will be in a temporary state next Sunday. No part of the main waiting room will be open to the public and a temporary waiting room will be provided for the passengers. The ticket offices and the baggage rooms will also be temporary. By November 17, however, it is hoped by the terminal officials that at least a portion of the main waiting room will be opened, although it will then be unfinished.

As a matter of fact, a tremendous amount of work has yet to be done on the interior of the station building. The decorations and finishings are to be of such an elaborate and costly design that to complete them will require months.

Beginning with Sunday the old station of the Baltimore and Ohio will be closed, and its life as a passenger station will be ended. It is necessary to close it to transfer the passenger activities of the road to the new station so early because the carrying out of the plans of the trackage of the new station requires the doing away with the old tracks of the Baltimore and Ohio, according to the plans of congress governing the arrangements for the new station.

While it will be about eight months before the station is completed, it is said that the public will not suffer any material inconvenience for that length of time.

The question of raising the rates on passenger fares into and out of Washington has been practically abandoned for the present by the railroad companies. The Pennsylvania Railroad Company has announced that the subject has been "indefinitely postponed."

## THOMAS C. JENKINS DEAD; PROMINENT IN PITTSBURGH

PITTSBURGH, Oct. 25.—Thomas C. Jenkins, one of the oldest and best-known business men of Pittsburgh, died this morning at his home in Allegheny. Mr. Jenkins had been in poor health for several weeks.

Mr. Jenkins was born in 1832 at Onondaga, N. Y. His father, James Jenkins, was a large land owner and held several county political offices.

### UP FROM THE DEPTHS.

"Now, Johnny," asked the gentleman, who had kindly consented to teach the class, "what does this fascinating story of Jonah and the whale teach us?"

"It teaches us," said Johnny, whose father reads practical articles on practical people, "that you cannot keep a good man down."—Harper's Weekly.

### PERSONAL.

Rev. Fr. D. J. Leonard of Cambridge, N. Y., says a young lady of his parish was cured of Consumption by Father John's Medicine.

Col. Wm. C. Miles of Washington, D. C., says: "Father John's Medicine saved my life."

One of my children had bronchitis from birth. Father John's Medicine cured her and made her strong.—Mrs. M. McCabe, 331 West 4th Street, New York City.

## CENTRAL OF GEORGIA SOLD TO THE N. & S.

RICHMOND, Va., Oct. 25.—That the Central of Georgia railroad has been sold to the Norfolk and Southern is admitted by Oakleigh Thorne, president of the Trust Company of America, New York, one of the owners of the former property, who withholds the names of the purchasers.

Railroad men here are reported puzzled over the deal, as there is no connecting link between the two roads. The general idea, however, is that the Norfolk and Southern will get control of the road from the capital of North Carolina to Augusta, there to connect with the tracks of the Central of Georgia.

## Food Poisons

**90 Per Cent of All Diseases the Result of Undigested Putrefying Foods**

Men of affairs, women of society and children with active brains are too often sedentary in their habits, giving little time to exercise. To this evil is added the habit of irregular living—eating as a result, the stomach cannot stand the demands made upon it. The food is not properly digested, and the food taken in ferments and the poison permeates the whole system. The body loses in weight and becomes a prey for the attack of whatever disease it may encounter.

Did it ever occur to you how busy that stomach of yours is? It only holds three pints, but in one year you force it to take in 2,400 pounds of material, and it prepares it for assimilation into the blood. No wonder it rebels when overworked. We crowd it with steaks and pastry, irritate its juices with spices and acids, and expect the stomach to do its work. It can't do it. All over the inner layer of the stomach are glands which secrete the juices necessary to digestion. The entrance of food into the stomach is the signal for these glands to do their work. The more the food, and the more indigestible, the greater the demand upon them and upon the muscles of the wall adjoining.

Think of the tons of high-seasoned game, sweetmeats and appetizers crammed into this little four-ounce wall, and then wonder if you will, when you are dizzy or nauseated or constipated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy.

First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bed time. They are not a medicine, but a digestive. Your stomach is worn out and needs help, not medicine. Stuart's Dyspepsia Tablets will do the work that the stomach fails to do. There's enough power in one grain of Stuart's Dyspepsia Tablets to digest 3,000 grains of ordinary food, so you needn't fear that anything you eat will remain in your stomach undigested.

Stuart's Dyspepsia Tablets will rout the poison because they remove the cause—food fermentation. They are nature's own cure for dyspepsia. The host of troubles dyspepsia is father of cannot be numbered, for a healthy stomach is the source of all health.

Seize your opportunity before worse conditions confront you. Send today for a free trial package of Stuart's Dyspepsia Tablets. They will bring your stomach relief. F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.
